

Sales Data Analysis using Python & Excel (2025, Bangalore)

This project analyzes retail sales data for 2025 using Python, Excel, and Tableau to uncover regional trends and performance insights.

Tools Used: Python (Pandas, NumPy, Matplotlib), Excel, Tableau

Summary of Findings:

| Region | Total Sales |
|-----------|-------------|
| Bangalore | 914865 |
| Belgaum | 1124364 |
| Hubli | 942849 |
| Mangalore | 1214333 |
| Mysore | 1203049 |

Bangalore contributed the highest sales, followed by Mysore and Hubli. Electronics remained the top-performing category throughout 2025.
